Abstract (en)  
[origin: EP0333576A2] The material can be wound in the form of a wheel and consists of a network of flat textile bands (2, 3) interlaced and fastened to one another in the common interlacing zones (5), said zones (5) being substantially in the same plane corresponding to the plane of the soil to be reinforced; some stiffened bands (3) are twisted between two consecutive interlacing zones (5). <IMAGE>
