Abstract (en)

[origin: EP0336222A2] A husk knife for mounting on a carding flat in a position inclined transversely to the carding direction and oppositely to this is characterised in that for the husk knife there is a steel section (12) which is held positively and in a slip-free manner in a support (10), likewise designed as a section and fastenable to the flat (20), as a result of the permanent plastic deformation of this support, the longitudinal direction of the support section (10) likewise being transverse relative to the carding direction (K). <IMAGE>
