Abstract (en)
[origin: WO8903205A1] A composition and surgical method involving the use as an ophthalmic viscoelastic surgical material of an aqueous solution containing at least 1.5 %, by weight, of a water soluble polyvinylpyrrolidone or polyvinylpyrrolidone copolymer having a molecular weight greater than 500,000 and a viscosity greater than 5,000 centipoises.

Abstract (fr)
Composé et procédé chirurgical mettant en oeuvre l'utilisation en tant que matière chirurgicale viscoélastique ophtalmique d'une solution aqueuse contenant au moins 1,5 % en poids d'un polyvinylpyrrolidone ou d'un copolymère de polyvinylpyrrolidone soluble dans l'eau dont le poids moléculaire est supérieur à 500000 et dont la viscosité dépasse 5000 centipoises.
