Abstract (en)

[origin: EP0340758A2] What is described is a milled silk fabric (silk felt) which has an intermediate layer (1) of natural hair and covering layers (2) of silk batting. Also described is a method for producing this milled silk fabric, in which an intermediate layer of natural hair is milled together with two covering layers of silk batting. <??>The textile material according to the invention is characterised by a high heat and moisture control and by a low weight. <IMAGE>
