Abstract (en)
[origin: EP0340856A2] A roof ventilator unit 10 for attachment to a fascia board 28 comprises an elongate profiled member 11 for attachment to a fascia board 28 with a ventilation gap therebetween, filter means 21 which extend across the gap and upstanding tooth elements 14 to engage the underside of tiles or other external roof covering. The unit may also include an integral anti-ponding strip 12 and drip skirt 13. Tiles may be retained in position by means of a tile-engaging clip 32 which is anchorable on a selected tooth element 14.
