Abstract (en)
[origin: WO8901302A1] This invention relates to multipurpose shoes which can be used for a plurality of purposes, and each of which consists of a combination of a shoe body provided in the lower surfaces thereof with a plurality of spike-setting bores, and a spike set composed of at least two groups of different types of spikes, each of the spikes which constitute the spike groups being fixed exchangeably in the spike-setting bores.
