Abstract (en)

[origin: EP0342470A1] A glove (5), especially for a glove box, having a particularly thin and elastic glove body, consists of thermoplastic single-component polyester urethane (12) based on an aromatic diisocyanate, is free from reinforcing fabric and has a polyester urethane coating (16) which is obtained on a shaped body by immersing this shaped body into a solution of the single-component polyester urethane in a mixture of dimethylformamide and methyl ketone and extracting the shaped body. <IMAGE>
