Abstract (en)
[origin: EP0345449A2] Long hair cutter for a dry-shaver, with a shearing comb fixedly arranged on a housing, with a bearing face for the bearing face of a blade leaf, which is coupled via at least one driver to a carrying member which can be driven by a drive, and with at least one pressure spring which is supported, on the one hand, on the carrying member and, on the other hand, on the housing, there being provided on the carrying member on the side facing the cutting teeth of the blade leaf a slightly protruding supporting edge made of plastic material and with a cross-sectional profile tapering towards the blade leaf, and the supporting edge bearing on the blade leaf in the region of the tooth bottom of the cutting teeth, and an optimal bearing of the blade leaf on the shearing comb being provided by deformation of supporting edge and blade leaf by means of the pressing force exerted by the pressure spring via the carrying member upon the supporting edge and upon the blade leaf. <IMAGE>
