Abstract (en)

Single-dose fabric-treatment articles are disclosed, said articles being in the form of sachets made of flexible sheet material, wherein at least one opening side is equipped with one or more semi-rigid strips (2) which are curved in their normal, relaxed state, and are constrained in a straight position by closing means (3) of the opening side, and which upon opening of the closing means, gain a curved shape so as to form an open mouth for the dispensing of the fabric-treatment composition.
