Abstract (en)
[origin: EP0346113A1] A process of washing fabrics in a washing machine comprises introducing a quantity of a liquid detergent (2) into an open topped vessel (5) through the open top, placing the vessel (5) containing said liquid detergent and fabrics to be washed in said washing machine, carrying out a washing process in the presence of the said vessel without either wholly or partly closing the open top or securing the vessel to any part of the washing machine, and removing said vessel from the washing machine after the washing process.
