Abstract (en)  
A clear and homogeneous concentrated hard surface liquid cleaner, free of builder salts, containing water, a water soluble surfactant system comprising a mixture of anionic and nonionic surfactants, a foam control agent, a polar water soluble ethylene or propylene glycol ether derivative solvent, and a perfume, suitable to be sold in a pouch for spot cleaning, and also to be diluted four times with water for general cleaning. These products are stable over a wide range of temperatures both 'as is' (neat) or when diluted four times with soft or hard water.
