Abstract (en)

[origin: WO8906302A1] The unit (1) disclosed has at least two panes (2), a mounting comprising a spacer with a sealant and a device (15) for securing said unit against burglary and sabotage. A gas sensor unit is accommodated in the intermediate, gas-filled space between at least two panes of the unit. The response level of the sensor unit is set to a predetermined value of gas concentration and emits an alarm signal when the predetermined concentration is detected.
