Abstract (en)  
[origin: EP0349313A2] A polyurethane polyamide self-crimping conjugate fiber having eccentric conjugate form, comprises a high hardness polyurethane (1) having a Shore hardness D of 58 to 75 and a polyamide (2) having a melting point of at least 200°C, which has a excellent extension stress properties and excellent heat resistance. The conjugate fiber is suitable for hosiery products and tricot products, having excellent transparency of fabric and excellent close-fitting properties.
