Abstract (en)
A finger ring assembly (10) with a toy or other article (14) connected with a finger ring (12) in such a way that the article can be disposed in various orientations while the finger ring is being worn, and the article (14) can be manipulated relative to the finger ring (12) so that the finger ring forms a base which can support the article from a surface (44) when the ring is not being worn.
