Abstract (en)
[origin: EP0350599A2] In a water-borne vehicle comprising a surfboard and a motor set, the set is designed that it essentially comprises two units, namely a seat unit having a steering control and outriggers, and a motor stern unit having a motor stern, an outboard motor and a retaining shoe, the two units being attachable to the surfboard with no modifications to the latter, using the existing holes and/or elements for mounting a mast, a fin and/or foot-straps. <IMAGE>
