Abstract (en)
[origin: EP0351525A1] A combination apparatus is described which consists of a pencil sharpener and an eraser. The essential factor in this apparatus is that the pencil sharpener (3) is arranged in the interior of the eraser (2). The eraser (2) can consist of one or several parts, the several parts being interconnected, for example, by a hinge. In a single-part design, the eraser (2) can contain an exit opening (6) for the pencil shavings.
