Abstract (en)

[origin: US5080824A] The invention relates to a cleaner and/or conditioner for glass-ceramic surfaces which contains epoxide functional organopolysiloxanes. The cleaner and/or conditioner may additionally contain other components, such as non-reactive organopolysiloxanes, surfactants, organic solvents, scouring agents, acid, additional additives and water, the composition being present as an oil-in-water or a water-in-oil emulsion.
