Abstract (en)

[origin: EP0353360A1] A combined floor pedestal and floor outlets which include a base drum 1 and a support drum 2 interconnected by an adjustment sleeve member 4 which is sleeved around and threadedly connected to the base drum and a support drum. The support drum 2 has a top annular bearing face 23 with grooves 25 and projections 27 to support and engage with floor rails and receives a plug body 3 which has sockets 33, 34 35 mounted thereon to be used for electrical connection on the floor. The support drum 2 is also provided with socket means 51 connected to the sockets of the plug. The assembly is convenient for making height adjustments as well as electrical connection.
