Abstract (en)

[origin: EP0353652A2] The additional device for attachment to an offset-printing machine (1), which has at least one forme cylinder (3), a blanket cylinder (offset cylinder) (4) and a back pressure cylinder, is fitted with a further forme cylinder (6) which can be brought into engagement via a toothed wheel (18) with a toothed wheel (19) of the offset-printing machine (1), which toothed wheel (19) is appropriately equipped and is attached to the blanket cylinder (4). The forme cylinder (6) of the additional device can be adjusted along its axis and in the circumferential direction.
