Abstract (en)
[origin: EP0355369A1] Spanned between the two belt conveyors (10, 12) are [lacuna]-shaped support elements (26). These are fastened in the end or starting region of the belt conveyors (10, 12) to the support plates (24), over which the active conveying sides of the conveyor belts (14) glide. The support elements (26) support the leading edges (30) of the printed products (28) in the region between the two belt conveyors (10, 12). <IMAGE>
