Abstract (en)

A washing powder in tablet-form, containing phosphate-free or low-phosphate builder salts, anionic tensides and non-ionic tensides, is produced by first preparing two powdery to granular components (A) and (B) separately and by then mixing and compressing them. Component (A) contains the total mass of the anionic tensides while component (B) contains 75 to 100 weight percent of the total mass of the non-ionic tensides.

Abstract (de)

Tablettenförmige Waschmittel, enthaltend phosphatfreie bzw. phosphatarmer Gerüstsalze, anionische Tenside und nichtionische Tenside, werden in der Weise hergestellt, daß man zunächst zwei pulverförmige bis granulare Komponenten (A) und (B) getrennt herstellt und anschließend miteinander vermischt und verpreßt. Die Komponente (A) enthält die Gesamtmenge der anionischen Tenside, die Komponente (B) 75 bis 100 Gew.-% der Gesamtmenge der nichtionischen Tenside.
