Abstract (en)

[origin: WO8808840A1] Compound characterized in that it results from the coupling of a molecule having a chemiosensitizing structure and a molecule having a cytotoxic structure. It also relates to its application as a drug, and to pharmaceutical compositions containing it.

Abstract (fr)

La présente invention concerne un composé caractérisé en ce qu'il résulte du couplage d'une molécule ayant une structure chimiosensibilisante et d'une molécule ayant une structure cytotoxique. Elle concerne également son application à titre de médicament et les compositions pharmaceutiques le contenant.
