Abstract (en)

A waste collection container, which can be mounted in particular on vehicles, trailers or the like, having at least one at least partially flexible hose, through which waste can be sucked into the inside of the container by means of a blower, the hose being constructed as a suction arm stiffened in an articulated manner which can be provided with and/or connected to one or more actuating drives and which, on being actuated, can be positioned relative to the collection container. <IMAGE>

Abstract (de)

Insbesondere auf Fahrzeugen, Anhängern od. dgl. anbringbarer Sammelgut-Behälter, mit wenigstens einer zumindest teilweise flexiblen Rohrleitung, durch welche mittels eines Gebläses Sammelgut in das Behälterinnere saugbar ist, wobei die Rohrleitung als gelenkig versteifter Saugarm ausgebildet ist, der mit einem oder mehreren Stellantrieben versehen und/oder verbunden und bei deren Betätigung relativ zum Behälter positionierbar ist.
