Abstract (en)

[origin: EP0364745A2] Universal mounting base for installation equipment, in particular electrical protective-conductor terminals, for holding on different mounting rails (top-hat rails and G-rails), having a metallic holding part bearing upon the outwardly directed mounting rail rims, and having a metallic fastening part, which is substantially C-shaped and can be moved with respect to the holding part by a control screw and has hook ends gripping the outwardly directed mounting rail rims from below, and having a middle G-rail holding block of the fastening part with bearing surfaces for the inwardly directed mounting rail rims of G-rails, the G-rail holding block (13) being arranged on the fastening part (4) so as to be capable of transverse displacement, and being provided on both sides with clamping shoulders gripping from below the inwardly directed mounting rail rims (19, 20) of G-rails. <IMAGE>
