Abstract (en)
[origin: WO8909150A1] Anti-theft device for watercraft, aircraft and land vehicles in which an internal combustion engine, as the main or auxiliary drive, or a gearbox can be controlled by means of a hand switch with a hand lever. A bushing (12) is rotatably mounted in an opening (11) in the front plate (18) of the hand switch (2). The internal end section (29) of the bushing (12) is connected to a control lever (15). A serrated shaft (9) connected to the hand lever (3) or a serrated bushing (24) of a locking device (23) engages with an internal toothing (17) in the bushing (12).
