Abstract (en)

[origin: EP0366508A1] Handle for an espagnolette with an integral locking means, especially for a vehicle, the said handle being wedged on the rod or axle of the espagnolette, characterised in that it comprises a support, through which passes the espagnolette rod (5), to which is fastened one end of a body which, at its opposite end, forms a bail (12) and which supports an axle (19) for at least one pawl (25) associated with a spring retaining this body in a hook (30) of the support, a lever articulated on the body having one-way actuation means for the pawl (25) in order to release it from the hook (30), at the same time allowing the pivoting of the said body and driving that of the espagnolette (5) in the opening direction, the said hook (30) moreover forming on its top a cam (30a) for actuating the pawl (25) during the opposite pivoting of the body in the closing direction.
