Abstract (en)
[origin: EP0368065A1] Aerated filter cigarettes having a predominant "American Blend" flavour based exclusively on Virginia tobacco varieties, whose mainstream smoke has a condensate/nicotine ratio of 5:1 to 9:1 with a condensate value according to DIN 10240 of not more than 10 mg, a pH of above 6.0 and a Herzfeld harmful substances index (HSI) below 35, characterised by the combination of features that a) the filling tobacco consists of virtually pure untreated Virginia tobacco with no flavour-modifying additives and having a high nicotine content, based on the dry substance, of 2 to 3.5 % by weight, b) the packing density of the filling tobacco is 150 to 250 mg/cm<3>, c) the cigarette paper has an air permeability of 3 to 20 CORESTA units according to DIN/ISO 2965, features a) to c) being selected so that the finished rod is in the conventional hardness/haptic range of 1.9 to 2.5 mm ET, and that d) the filter is a fine-denier cellulose acetate filter provided with conventional hardening agents and no flavour-modifying additives, and i) an individual count of 1.3 to 2.5 denier or 1.44 to 2.77 dtex.
