Abstract (en)

[origin: EP0368239A1] The assembly includes a plurality of parallel bars (3) which are connected to one another by diagonal elements which are articulated in the shape of a parallelogram; the sliding guides (4) of the bars (3) are vertical, and the ends of the bars of the gate are guided into the openings of the guides; respective threaded stems are rotatably mounted inside the guides (14), respective female threads (15) engaging along the stems, the female threads (15) being rigidly associated with the last bar.
