Abstract (en)
[origin: WO8911977A1] A writing point (A) for ball point pens comprises a receiving hole (2) for a writing ball (3), a rotating support surface (6) inclined to a central feed hole (4) and arranged between the latter and the receiving hole, feed channels (5) which open into the central feed hole and into the support surface, and spherical support regions (7) configured to match the ball. Intermediate surfaces (8) which increase the capillarity are arranged between the spherical support regions and the feed channels.
