Abstract (en)

[origin: WO8911879A1] The invention relates to therapeutic material for covering wounds and skin lesions and the preparation thereof. The therapeutical material according to the invention contains a carrier impregnated or laminated with a non-irritating emulsion which optionally may be admixed with an effective amount of biologically active material. The therapeutical material covering wounds does not stick in the surface, is permeable for secretions and easy to handle.

Abstract (fr)

L'invention concerne une matière thérapeutique destinée à recouvrir des blessures et des lésions cutanées ainsi que la préparation de ladite matière. La matière thérapeutique selon l'invention contient un support imprégné ou recouvert d'une émulsion non irritante que l'on peut facultativement mélanger avec une quantité efficace de matière biologiquement active. La matière thérapeutique recouvrant les blessures ne colle pas à la surface, est perméable aux sécrétions et facile à manipuler.
