Abstract (en)  
The invention relates to a device in drawers preferably included in office furniture, and having at least one movable partition wall (1). The wall (1) is optionally locatable in the drawer (4) with the aid of lug means (6,7) projecting from its end parts (2,3) for coaction with recesses (8,9) in the casing (5) of the drawer (4), at least one of said lug means (6) being at either end part (2;3) manually operable to and from a locking engagement in recesses (8) for enabling rapid and simple fitting or removal of the partition wall (1).
