Abstract (en)

[origin: EP0372832A1] An apparatus for fabricating glass plates (65), which comprises a cutting section (1) for cutting glass plates (65) into a predetermined shape by the pressure of water mixed with abrasive materials. A finishing section (2, 3) is provided for finishing the cut sections of the glass plates (65). A glass plate feeding section (4) is provided for feeding the glass plates (65) one after the other to the cutting section (1) and the finishing section (2, 3). A numerical control apparatus (not shown) for numerically controlling the cutting section and finishing section is connected to the cutting section and the finishing section.
