Abstract (en)
[origin: EP0373242A1] A packaging for a two-component product is described, which consists of a basic container and a cover assembly which can be pushed into the latter. Basic container (3) and cover assembly (6) are sealed in an airtight manner with the aid of a security element (11). The cover assembly is composed of an upper push-in cover and of a lower push-in cover. In the central region of the upper push-in cover, a filling hole (18) is provided, which is closed via a press-closure (8) <IMAGE>
