Abstract (en)

[origin: EP0374505A2] The invention relates to a process for metallising a substrate (1) of an organic or inorganic material. According to the invention, a catalyst layer (2) is applied to the surface of the substrate (1) and then zonally activated or passivated. A further layer (3) is applied to the activated zones (2A) of the catalyst layer (2). <IMAGE>
