Abstract (en)

[origin: EP0375476A1] Applicator assembly (1) intended in particular for the make-up of eyelashes, comprising a cap (3) fixed on a reservoir (2), a stem (5) carrying an applicator element (4). A tubular device (6) contained in the cap (3) in a rest position slides on the stem (5) through the action of an elastic element (7) when passing from the rest position to the application position and at least partially covers the stem (5) in the application position. <IMAGE>
