Abstract (en)

The invention relates to an edge strip (1) intended for glass packing strips (5) with a view to immobilising them on the stored glass sheets. This edge strip (1) consists of multilayer corrugated board, the said edge strip being secured, by means of adhesive bonding of the rapid setting type, to the said insert strip (5), and for example by a so-called hot melt adhesive having a rapid setting time (a few seconds), to be applied hot, the corrugations of the board being oriented parallel to the strip. <IMAGE>

Abstract (fr)

L'invention concerne une talonnnette (1) destinée aux bandes (5) de calage verrier en vue de les immobiliser sur les plaques de verre stockées. Cette talonnnette (1) est constituée de carton ondulé multicouches, ladite talonnnette étant solidarisée par collage de type à prise rapide sur ladite bande intercalaire (5) et par exemple par une colle dite "Hotmelt" à temps de prise rapide (quelques secondes), à appliquer à chaud, les ondulations du carton étant orientées parallèlement à la bande.
