Abstract (en)  
[origin: EP0376068A1] The winter sports appliance has a pair of sole plates, which each have side slide edges. The sole plates (3,13) have a width increasing from the toe end (A) to the ball part (B), and then remaining constant up to the heel end (C). The undersides of the sole plates have a walking face (G), which rises from the ball part to the toe end w.r.t. a flat standing part. The sole plates are pref. each fixed to the shoe upper (1,2) by detachable connectors. Slide strips (4) of a wear-resistant material are let in along the slide edges and extend forwards from the heel end up over the ball part.
