Abstract (en)
[origin: EP0378150A2] The invention describes a reduction plate (1) with at least one opening (2) for use in feed hoppers or casting moulds, in particular for casting steel, grey cast iron or light alloy castings, which is intended to make possible a reliable, precisely metered casting process. This is achieved according to the invention by the fact that the reduction plate (1) consists of sheet steel or a similar metal (3), which has a coating (4) of refractory material at least on the entry side. <IMAGE>
