Abstract (en)
[origin: EP0379164A2] It is proposed to injection mould an insulation housing (7) around an electrical plug connector (6) having a comb-shaped multiple plug contact (1) consisting of metal sheet or wire, which can interact with single plug contacts (2). It is furthermore proposed, with the aid of this plug connector (6), to form a permanent connecting device and a variable cable set. The invention is intended especially for use in the motor vehicle. <IMAGE>
