Abstract (en)

[origin: EP0380386A2] The installation comprises a first part (24) which brings the first side of the pieces (12) opposite the spray means (12) against one of the sides of this means, a second part (26, 28, 30, 32, 34) along which the moving pieces are rotated through 360 DEG , and a third part (36) which presents the pieces to the spray means (12): the latter then deposits the coating material on the second side of the piece. <IMAGE>
