Abstract (en)
[origin: WO9000918A1] A ski binding for a cross-country or touring ski in which a boot (100) is inserted into a sleeve (40) and held firmly therein by means of a locking pin (32), when a catch (60) prevents the mutual movement of the sleeve (40) and the locking pin (32). A double groove (43a, 43b) permits locking even if an obstacle (13) prevents the bottom (41) of the sleeve (40) from being completely lowered.
