Abstract (en)
[origin: EP0381052A1] An apparatus for spraying surfaces (0) has at least one drivable first spray nozzle (4) which is supplied with pressure fluid, is mounted rotatably about an axis (5) of rotation and is contained in a spray housing (2) which can be moved, for example by rollers (9), in a predetermined working direction (A or B). Arranged in each case behind the spray nozzle (4) is at least one further spray nozzle (12) which has a fluid feed separate from the first spray nozzle (4). <IMAGE>
