Abstract (en)  
[origin: WO8902824A1] A flexographic printing machine comprises a printing block cylinder (42), an impression cylinder (3) and a duct roller (4) for printing webs of material of variable printing format. For this purpose, two interchangeable pillow blocks (37) for receiving the journals (31) of the printing block cylinder are fastened to two supports (21) each of which is mounted on a journal (18) of an excentric (19), and the other end pieces of the supports are connected through a piston rod (27) with an inking roller (28).
