Abstract (en)
[origin: EP0384932A1] The set of elements for a construction, in particular conservatory, roofing or front-door or window canopy, possesses a base profile (1) which can be employed as a support, purlin, bearer, lateral roof profile and wall-connection profile and has two cross-sectional portions (18, 19), thermally separated per se, and external fastening grooves (4, 5) undercut in cross-section, and also internal receiving chambers (2, 3). Detachably insertable in the fastening grooves (4, 5), the receiving chambers (2, 3) and the base profile outer sides are support, stop and closing profiles (6, 7, 27, 8) and also connectors, which form with the base profile (1) a framework for a fixed support and bearing of roof and wall elements, preferably of glass panes or plastic panels. <IMAGE>
