Abstract (en)

A tamper resistant packaging box comprising a box body (A) of rectangular section in plan view and an inner frame body (B) recessed into the box body (A). The box body (A) is closed at opposed ends by a cover plate (5) and a base plate (6) each having a flap (51,61) adhesively bonded (52,62) on the back to the outer surface (B41) of the inner frame body (B) thereby preventing access to the adhesively secured surfaces from the outside of the fabricated packaging box to release the flap (51,61). Several blanks for forming the box body (A) and inner frame body (B) are disclosed.
