Abstract (en)

In this apparatus for the impregnation of a sliver (12) which passes through a zone of the apparatus comprising a conduit (22) for the arrival under pressure of the impregnation liquid, the outlet orifice (30) of which opens out in a transverse direction (13) of the sliver (12), said zone is arranged in a guide bush (32), inside which the sliver (12) passes, and the arrival conduit (22) opens out in a rectilinear part (34) of the bush generally perpendicularly to the axis of this rectilinear part. <IMAGE>
