Abstract (en)
A sealed beverage package containing one or more beverage preparation ingredients and being formed from substantially air- and water-impermeable materials, the said package (1) having an outlet nozzle (2) formed therein which is surrounded by a wall (3) onto which is sealed an air- and water-impermeable material (5) covering the outlet nozzle (2), the beverage package (1) having a trough (6) formed between the outlet nozzle (2) and at least a part of the said surrounding wall, the said trough (6) being adapted to receive therein the air- and water-impermeable material (5) covering the outlet nozzle (2) when, in use of the package to prepare a beverage, the said material (5) covering the outlet nozzle (2) is partially cut around the nozzle (2) to form a flap and the flap folded away from the outlet nozzle during the formation of an outlet (4) in the said package.
