Abstract (en)
[origin: EP0390276A1] A partition wall (1) in which conduits (34) can be arranged is fixed to the ceiling (2) and to the floor (3) by means of rails 84), two layers of panels (6) being disposed at an interval from one another, for instance of plasterboard. Each of four panels is fastened to a separate associated profile (9), which is situated on the inner surface of said panels and said four profiles are mutually attached by means of locking means (24) in a detachable way.
