Abstract (en)

[origin: WO8900424A1] Fusidic acid and certain of its analogues are useful for the prophylactic and/or therapeutic treatment of AIDS-related complex and full-blown AIDS. Pharmaceutical compositions containing these active ingredients and methods for their preparation are disclosed.

Abstract (fr)

L'acide fusidique et certains de ses composés analogues sont utiles dans le traitement profilactique et/ou thérapeutique de complexes associés au SIDA et du SIDA totalement développé. Des compositions pharmaceutiques contenant ces ingrédients actifs et des procédés pour leur préparation sont décrits.
