Abstract (en)

A covering mask (1) for a door lock cylinder is provided with pressure-locking means (10) adapted to apply a pressure on the outer surface of the cylinder. The covering mask can be made of one piece or may comprise two separate parts including a main body (100) provided with anchoring means (101) and a housing (104) for a door-lock cylinder, and a door-lock cylinder-mask (107) fitting into the said housing and around the door-lock cylinder. The mask is used to protect door-cylinders from unauthorized entry.
